

# A Year in the Life of Stillwaters -2016

**INTERNS**  
4 interns contributed over 410 hours!  
It's an exciting time with research, data collection, and findings all percolating and giving new energy to the campus.

Stillwaters Environmental Center advances scientific research, education, and restoration on Puget Sound lowland streams and estuaries.

**BIRDS**  
Our monthly birders observed 64 species of birds in the watershed, including 6 different kinds of raptors. Most exciting was the sighting of the rare Virginia Rail, living in the floating bog around Carpenter Lake.

**ECOFEST**  
Over 85 people attended our EcoFest Community Science and Nature Festival.

**MONITORS**  
40 volunteers donated 1024 hours to monitor the health of our watershed and of Puget Sound.

**NEWSLETTER**  
Over 2300 Stillwaters supporters receive our newsletter.

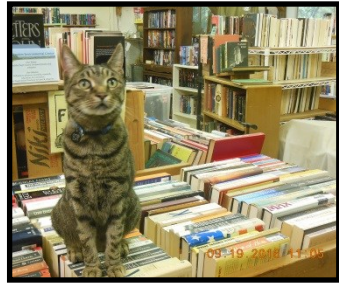

**VOLUNTEERS**  
118 volunteers donated more than 2490 hours to Stillwaters.

**BOOK SALE**  
On-site and online book sales raised \$12,000 and accounted for over 700 visits to our campus. Over a dozen households joined our mailing list at the book sale.

**ECO-CRUISES**  
Friends of Stillwaters discovered nearshore Puget Sound. Our local waters are complex and unique systems full of wonders!

**EDUCATION**  
Stillwaters had 1170 contact hours with 413 students and adults. This includes field trips to the campus and school visits and a day long learning event at Camp Indianola.

**MAKING IT HAPPEN . . .** In 2016, we raised \$ 101,525 in cash contributions and grants, for general operations and for the property campaign. These are the many Stillwaters members who supported our work financially and with in-kind donations.
